

Orientation to Ontario

PUBLIC SCHOOLS

Elementary school includes kindergarten and grades 1 to 8. Children usually start school when they are 4 or 5 years old. Some areas have middle school or junior public school for grades 6 or 7 and 8. Secondary school (also called high school) includes grades 9 to 12.

To enroll your children in school for the first time, you need to contact your local school board. The school will assess your children to determine what grade they should be in. There are language supports for students who are learning English.
